Licensed Manufacturer

Bradnam's
windows & doors

A part of Bradnams **Essentials** range
of windows and doors

Bradnam's **sliding windows** combine wide views, with simple, classic design and easy operation.

Sliding windows have at least one sash sliding horizontally providing fully adjustable ventilation for greater energy efficiency and comfort. The low force sliding system provides a smooth and quiet operation that requires little maintenance.

The sliding window is a reliable choice for design flexibility and can be combined with fixed panels. Sliding windows can be used to enhance a building's characteristics with a simple, economical design.

features and benefits

- Low force sliding system for ease of use
- Full joint sealing maximises weather proofing performance
- Optional keyed vent lock allows the window to be left partially open enabling ventilation while ensuring security
- Powder coated aluminium frames for a durable finish
- Optional integrated safety and insect screens. Screens can be accessed internally – Ideal for two storey constructions
- Clear sight lines with concealed rails
- Tested to Australian Standards
- 7 Year Warranty

applications

- Residential Construction
- Renovation
- Low-rise buildings
- Range of sizes from large feature windows to small bathroom windows

note

Products may be subject to local variation or climate requirements

options

- Colonial, Federation or custom bars

- Glass options – Suitable for thicker glass panes to suit thermal and acoustic applications
- Range of sill options for higher water and wind performance applications
- Aluminium framed safety and insect security screens
- Energy efficient / High performance system options
- Compatible with other Bradnam's window products

select window with a high performance option

Choosing the right energy efficient product is made easy with Bradnam's online do-it-yourself **5 STAR WADS™** (Window and Door Selector). Go to bradnam.com.au

Solar Block™ is ideally suited to locations where keeping out heat, glare and damaging UV rays are a priority. Just like having sunglasses on your home.

Solar Comfort™ is the perfect choice for keeping comfortable temperatures all year round, despite the outside extremes. Spend less on heating and cooling your home and help the environment.

Sound Smart™ is a system that reduces external noise. By simply installing the right window and door system, you can 'turn down' the sound to far more comfortable levels.

Solar Secure™ is approximately 20 times harder to break through than ordinary glass, making it an ideal invisible and economical home security barrier.

Solar Sound n Secure™ offers comfort, safety and acoustic high performance in one window. Ideal for residential, high rise and commercial applications.
